**RODEO COMMITTEE FOR 2008**

## **WELCOME, RODEO FANS!**

**T**he 2008 St. George Lions Rodeo Committee would like to thank you for attending the 74th annual Dixie Roundup Rodeo. We pride ourselves on our GREAT Bar-T Rodeo stock, clowns, bull fighters and PRCA contestants. The St. George Lions Club and the St. George Community thank you for supporting our fund raiser. Remember, all your support money goes back into your community.

**Please support our sponsors  
 and have a great time at the RODEO!**

**DANIEL D. McARTHUR**  
*Mayor, St. George*

**I**t is indeed a pleasure for me as mayor of the City of St. George to welcome you to the Sunbowl for the St. George Lions' annual Dixie Round-Up! For those of you who are visiting our City for the first time, I hope you will have the opportunity to mingle with our friendly citizens and partake of the many recreational opportunities St. George has to offer. We also have many fine restaurants, first-rate shopping, and there are numerous nearby state and national parks to hike and explore.

St. George is proud of its pioneer heritage, and its legacy of volunteerism and community spirit. The Lions' Club has played a vital role in this legacy, and I would like to thank them for their involvement in our community and for the many charitable and social events which they sponsor for the betterment of our City.

Again, welcome to Utah's Dixie, and enjoy the show!

**CRIS KAPP**  
*Lion President*

**I**am honored to be the president of the St. George Lions Club this year. I consider myself very fortunate to be a part of this great club and serve our community. We will continue to work hard to bring you the great concerts and rodeo traditions that we have all come to love and enjoy.

The St., George Lions welcomes each of you to the 74th Annual Dixie Roundup and we appreciate your continued support. The funds we raise from this, and all our activities go back to support local community projects and worthwhile causes.

May I take this moment to thank the City of St. George, all of our sponsors, the entertainers and especially you -- the rodeo fans -- for making this rodeo such a success for 74 years!

*Get comfortable, and enjoy the show!*

## ***GRAND MARSHALL BRENT PACE PRINCE***

**B**rent Pace Prince is a native of New Harmony, Utah. The son of Darce and the late Camilla Pace Prince, Brent's Southern Utah ranching heritage reaches to 1865 with his great-great grandfathers being among some of the first ranchers in Washington County. He continually strives to honor the traditions and values of his forebears and innately lives a life of service that makes a significant difference for individuals and communities.

Brent has inspired countless students, parents, and colleagues as an outstanding teacher at Sunset Elementary for twenty four years. He has created an exceptional roping program for students that centers around "The Code of the West," a set of guiding principles that were lived by previous generations. Brent exemplifies living this code in his daily life through service and devotion to personal and community causes.

Brent enjoys riding the trails of Pine Valley Mountain with his horse Shorty and his trusty dog Bandit. He is one of few that know all the historical mountain trails in and around New Harmony. Brent is also a talented artist and creates metal art that he generously gives to students and others. Each piece is a lasting impression of all that he has taught them in both word and deed.

### *In Tribute:* **FRED JENKS**

**F**rederick E. Jenks was born July 13, 1924 in Painted Post, New York. His parents were Edwin T. Jenks and Estella Pellow. He is survived by his wife Marilla, and children E. Seth, Eleanor, and Tom.

A master carpenter, Fred worked for a retail lumberyard and later became certified to teach carpentry at BOCES, Wayne Co., New York. He was a veteran of World War II and a member of Miner-Young Post and VFW; a charter member in 1958 of the North Rose Lions Club, and an active member of the St. George Lions Club; a Master Mason in Rose Lodge #590 and a 32nd degree Mason in the Rochester Consistory. He served on the Board of Education, Special Service Board, was a volunteer fireman for 58 years, and an active church member.

Fred enjoyed music, singing, reading, model railroading, coin collecting, hunting, and playing cards. He especially enjoyed his association with the Lions Club.

### *In Tribute:* **KEVIN FLOWERS**

**K**evin Ray Flowers was born January 22, 1956 in Van Nuys, California and passed away on June 21, 2008. Kevin was a long time resident of St. George. He, his brother Craig, and father Buck, were in the construction trade and were instrumental in the growth of Washington County.

Kevin didn't have hobbies, he had lifestyles. Boating, biking, customizing, joking, laughing, and being around people were his favorite things. He spent the last decade of his life doing exactly what he wanted, whenever he wanted. Few people dedicated themselves to their passions as fully as Kevin did. He spent a great deal of his time and energy helping his friends and family accomplish and solve the various goals and problems they brought to him, looking for guidance and leadership. There was no one else like Kevin.

Kevin was an active member of the St. George Lions Club for many years. He served as chairman of the Lions Dixie Downs Horse Races. During his first year as chairman, the races were held at its old location in Dixie Downs. Kevin's second year saw the races moved to the new Washington County Fairgrounds. Kevin spent several months working full time overseeing the construction of the new race track. We couldn't have made the move without him.

## 2008 DIXIE ROUNDUP QUEEN JAMIE LEE UDELL

Being a rodeo queen isn't all horse skill and rodeo knowledge -- a huge percentage of being the Queen is about having a caring heart for serving. My parents taught me that God put us on this earth to be of service to others. That is why I am extremely honored to be Queen of the 74th annual Lions Dixie Roundup Rodeo. The Lions Club is all about the value of helping others. I am proud to represent them! From 'Pink Night' raising money for the cause of breast cancer . . . to all of the other good works that the proceeds from this rodeo will be able to help with ... it is just amazing all the lives that will be touched. I am so grateful to Brad Marshall, Wayne Hoppal and Darren Coughlin and the whole mass of Lions volunteers who put together this tremendous rodeo. Thanks, Brad, for having faith that I would do a good job during those long phone calls with my mom and me while we all tried to figure out what I should be doing. Thank you, Julie Bishop, and your committee of caring women who put on such an outstanding pageant that was very enjoyable for all the contestants as well as those who came to watch. Thanks also to Mark from Colorland Photo, whose pictures made my princess

and me look like royalty, and Bryce Christensen and Darren Coughlin. My beautiful saddle which I have paraded around in all these months has made both my horse and me feel beautiful! And thank you, Lions, for my scholarship -- I am soooooo appreciative of that!!!

Next I want to thank Adi Thelen, who is not only one of my professors at Dixie State College, but also a dear friend. She threw tons of questions at me all the time and got to listen to my speech again and again. My gorgeous shirts were made by Kathy Walsh from Colorado. Yes, trying to put clothes together long distance was a little difficult, but it was well worth it. Kathy, you have made me look every inch the Queen! You are awesome and I so love you! And I am also grateful to Kami Taylor for doing such stunning paint work on my Wranglers! What more can I say than "Wow!"

I absolutely would not be here today without the help and support of so many people. First I want to thank the people who believed in me from the very start -- Tara, Joe, Lindsey, Jessica, Tami, Mary, Richard, Twitch, Brady . . . you all looked at a girl who knew nothing and in her you saw a queen. You guys will *forever* have a special place in my heart. My gratitude also goes out to everyone at the Brandin' Iron Steak House in Pine Valley where I have worked since I was 14. They have all watched me grow up and probably had a hand in making me what I am today. Being able to have them see me get the crown was the best part of the whole pageant. As Doc Booth put it, "We were all tickled pink to see our girl win!" I also very much appreciate all of the weekends the Brandin' Iron generously covered for me at work so I could go to all the rodeos.

Mom and Dad, you both never gave up on me, and you still helped me even when I got crabby with you, Mom. You always had everything so organized, made sure I looked perfect and have taken some amazing pictures for me and everyone else, too. Thank you for all the hundreds and hundreds of miles you drove. Dad, thank you for finding that first application and saying "You can do this," for always giving me so much help with my horse and holding down the fort at home with my sisters to allow Mom and me to travel. I love you! Kassie Liston, my Dixie Roundup Princess, you have been the BEST! You and your mom were always so willing with all of my ideas and always enthusiastically said "Let's do it!" Kassie and I have had such a wonderful time that we don't want it to end with the Roundup; we hope the Lions will let us help with other projects they always have going on throughout the year (hint, hint).

Lastly, to all of you who have come to watch and support this rodeo -- it's you folks who allow all of us to be able to do what we do. Thank you! *So now, hold on to your seats . . . .!*

## KASSIE LISTON 2008 Dixie Roundup Princess

**H**i, everyone and welcome to the 2008 Lions Dixie Roundup. I am so excited!! Being the Roundup princess has been a lifelong dream for me. I am grateful to so many people for helping make this the most awesome experience EVER!! First off, none of this would have been possible without the Lions Club. Every member has been so great to me. I would like to give a very special thank you to Brad Marshall. He is always so willing to help me and always makes me laugh. Love ya, Brad!! I would also like to thank the sponsors of our saddles, Bryce Christensen and Darren Coughlin. Thanks so much, guys. And I really need to thank Julie Bishop, too. She put in so much time and hard work getting the pageant put together and she did a terrific job. It was a great

experience for everyone.

Of course, I want to thank my queen, Jamie Udell. I have really had such an awesome time with you. It has been a blast!! You have become a great friend to me and someone I can really look up to. Thanks for being so easy to work with and fun to be around. Some time in the future, just for old time's sake, we will have to put on the ol' white wranglers and do the watermelon race again! I'm sure we can win it with a little more practice. I need to thank Jamie's mom, Bev. Boy, did you put in a lot of work! Thanks for the time and especially for all the pictures you took. They are really great to have. I also need to extend a special thank you to Kathryn Walsh, who made all of our shirts -- she did a great job; and to Kami Taylor, who painted our Wrangler jeans! Thanks Kami, you are the best!

Last, but certainly not least, Mom and Dad! Mom, thank you for putting up with me in the early mornings and the very late nights. I will never forget all the make-up and hairspray! Thank you for supporting me in all my dreams. Dad, no words can describe how grateful I am to you. Thank you for letting me use your roping horse for a princess horse, and keeping a smile on my face the whole way! I love you guys!! Thanks to everyone out there who supported me and gave me lots of hugs and loves. It's time now to get started here in the Sunbowl, so sit back, relax, *and let's Rodeo!*

## *Rules to Ensure the Humane Treatment of Rodeo Livestock*

1. No locked rowels, rowels that will lock on spurs or sharpened spurs may be used on bareback horses or saddle broncs.
2. Wooden paddles are not to be used by any PRCA member to beat or intimidate animals.
3. In calf roping, calves may not intentionally be flipped backward. Contestant must adjust rope and reins in such a manner that will prevent horse from dragging calf. The rope is to be removed from calf's body as soon as possible after "tie" is completed. Roping calves shall weigh at least 250 pounds each, and be strong and healthy.
4. Placing fingers in the eyes, lips or nose of steer while wrestling same is forbidden.
5. Animals for all events will be inspected before being selected for competition, and no sore, lame, sick or injured animal, or animal with defective eyesight, shall be permitted in the "draw" at any time. Should an animal become sick or be injured between the time it is drawn and the time it is scheduled to be used in competition, that animal shall not be used in competition and another animal will be drawn for the contestant as provided in the PRCA rule book. A veterinarian shall be present or on call for every performance and/or section of slack. Failure to do so shall result in a fine to the rodeo committee of \$100 per performance.
6. No animal shall be beaten or cruelly prodded. Standard electric prods shall be used as little as possible. Animal shall be touched only on the hip or shoulder area with prod.
7. A conveyance must be available and used, if possible, to remove animals from arena in case of injury. Injured calves shall be removed from the arena in a pickup truck or calf stretcher.
8. No sharp or cutting objects shall be permitted in cinch, saddle girth, or flank straps. Only sheepskin-lined flank straps shall be used on bucking stock, and flank straps shall be of the quick-release type.  
Sheepskin-lined flank straps shall be placed on the animal so the sheepskin-cover portion cover both flanks and the belly of the animal.

**STILLMAN**

All Makes and Models --Truck and Cars*

*Complete Fleet Service*

**(435) 673-4287**

511 North 1300 East • ST. GEORGE, UTAH 84770

9. PRCA-approved saddles or rigging must be used in the saddle bronc riding and bareback riding events.

10. No stimulants or hypnotics are to be given to any animal used for contest purposes.

11. Chutes must be so constructed as to prevent injury to stock. Maintenance personnel and equipment shall be stationed at chutes to assist in removal of any animal should it become caught. The arena shall be free of rocks, holes and obstacles.

12. Clowns are not to abuse stock in any fashion.

13. No small animals or pets allowed in arena where restraint is necessary, or where subject to injury or attack by another animal.

14. Livestock shall be removed from arena after completion of entry in contest.

15. Use of fireworks to frighten animals is prohibited.

16. Contestant will be disqualified for any mistreatment of livestock.

17. No stock shall be confined or transported in vehicles beyond a period of 24 hours without being unloaded, properly fed and watered. Failure to abide by this shall subject the stock contractor or contestant involved to a \$500 fine for the first offense and a progressively doubling fine for every offense thereafter.

18. Any animal that becomes excessively excited so that it gets down in the chute repeatedly, or tries repeatedly to jump out of the chute, or in any way appears to be in danger of injuring itself, should be released immediately.

19. Any PRCA member, including stock contractor, guilty of mistreatment of livestock may be fined up to \$500.

20. Plaster and rebar are required to be placed around the horns of steer roping cattle before contesting and all team roping steers must have horn wraps.

# **TOUGH ENOUGH TO WEAR PINK!**

*Friday, September 19, 2008 will be celebrated as "Pink Night."*

*\$1.00 of every ticket sold will be donated to the local  
IHC Foundation Breast Cancer Awareness Program*

**So, don't be afraid . . . .**

**Show that YOU are "TOUGH ENOUGH TO WEAR PINK"**

A Rodeo is a tough guy's sport where cowboys rope and wrangle,  
They wipe the dirt off from a fall and prepare for the next tangle.

A wrangler's uniform is made from courage, blood and dirt

But this year the "real cowboy" is wearing a PINK SHIRT

He's tough enough to wear it proud. It's meaning understood

So please be "tough enough" to give, as an awesome cowboy would

Trish Beach

# THE PRCA'S CIRCUIT SYSTEM

While some full-time rodeo cowboys bask in the glory of large arenas, most members of the Professional Rodeo Cowboys Association are circuit cowboys.

For the circuit cowboy, rodeo is something that follows a 40-hour work week. When the weekend hits, he loads up his horses or equipment and heads down the road, usually no more than a few hundred miles, to a PRCA rodeo.

That's not to say these competitors are any less serious about their sport than their marquee counterparts. But their families or professional obligations require them to stick close to home for most of the year.

In 1975, the PRCA recognized the need for an award system for these cowboys who might never qualify for the National Finals Rodeo.

To fill the void, the Association created the Circuit System, which is composed of 12 geographic regions encompassing as few as one state, such as Texas or Montana, to as many as 13 states, as in the Fires Frontier Circuit.

Every PRCA cowboy in the United States chooses a home circuit at the beginning of each year. If a cowboy fails to select a home circuit, the PRCA automatically assigns him to the circuit that corresponds to his home address.

Circuit System cowboys compete for points throughout the year; those points earned within their circuits count toward their place in the circuit and world standings. However, points accrued at rodeos outside their circuits count only toward world standings, not circuit standings.

Each circuit's top cowboys in each event qualify for one of the PRCA's most prestigious events.

The Dodge National Circuit Finals Rodeo (DNCFR) is the crowning event of the PRCA's Circuit System. National circuit champions are determined at the event, which takes place each March in Pocatello, Idaho.

All PRCA cowboys are eligible to compete at the circuit level, and circuit-level cowboys are eligible to compete nationally. The DNCFR pits cowboys from throughout the country in the elimination-style format.

The DNCFR contestants all start out equal. During the four-day rodeo, contestants competed for nearly \$450,000 and national circuit titles. Each year, ESPN 2 televises the final round of the DNCFR.

## The BAR T RODEO INC. STOCK CONTRACTOR

The Bar T Rodeo Inc., was started in 1948, by D.A. (Swanny) Kerby when the Association was called RCA Rodeo Cowboys Association. Swanny along with his son Bud Kerby and their families have been in the Stock Contracting and Rodeo Producing Business ever since.

In 1995 Bud and his wife Evelyn bought out Swanny and Verda; however the Kerbys are still involved with the business as much as possible, allowing them to relax when they feel like it in their older age. The Kirby's have prided themselves on doing fast professional rodeos with the best bucking horses and bulls available for over 45 years. They have won numerous awards to show for their efforts, such as, the Top Bareback Horse in the World in 1976, Ol Alley Cat, the Third Best Saddle Bronc Horse in the World in 1988, R5 Deception, and the second Best Saddle Bronc horse in the World in 1991, C1 Copenhagen Sparrow. The Bar T has won several other awards, such as, the Third Best Saddle Bronc Horse at the NFR in 1989, R14 Skoal's Reception, and the Number One Saddle Bronc Horse at the NFR in 1990, C1 Copenhagen Sparrow. They have also won numerous other awards at the National Finals Rodeo, bring home many award buckles and thousands of dollars in top stock awards. In 1978 The Bar T Rodeo Company started their own bucking horse breeding program that has since proven to be very effective at producing top Bareback and Saddle bronc horses, many of which have gone to the NFR. The Bar T Rodeo Company has taken stock to the NFR since the very first one 33 Years ago in Dallas, Texas. They have been coming to St. George's Lions Dixie Round-Up for years. They also have participated in many other of the top PRCA Rodeos, such as The Denver Stock Show and Rodeo in Denver, Colorado, The Houston Live-Stock Show and Rodeo in Houston, and The Day's of '47 Rodeo, in Salt Lake City. The Bar T Rodeo Company Incorporated in 1989 to become The Bar T Rodeo Inc.

## 2008 Lions Club Scholarship Recipients

**Sean Cardon**

Thank you for the wonderful opportunity that you have given me to further my education. The Lions Club scholarship will greatly help me financially while attending Dixie State College. I know that many deserving people have applied for this scholarship and I feel privileged to have been chosen.

I would just like to say once again, *Thank You St. George Lions Club!*

**Sean Cardon**

It is my pleasure to express my appreciation to the Lions Club for their generous scholarship that I have received. It has always been one of my goals to attend and graduate from college, and with this contribution I will be able to reach that goal. I am currently attending Dixie State College and will receive my Associate's Degree this year. I will continue my education at the University of Utah where I will major in Physical Therapy. I am looking forward to the next few years and expanding my horizons as I continue my education. Thank you so much for putting your trust in me and for your support!

**Kaycee Clove Kaycee Clove**

**Cody Randall**

I would like to thank the Lions Club for giving me the opportunity to attend Dixie State College through their scholarship program. I am planning on getting my General Degree and then pursuing a Bachelor's Degree in Business. The scholarship money will help me accomplish my goals. With sincere gratitude...

**Cody Randall**

## RANDEE MUNNS Rodeo Clown • Barrelman

Randee Munns has been clowning rodeos for over 20 years throughout the United States. He is from Garland, Utah, where he has a ranch and horse training operation. Randee is also a brand inspector for the state of Utah, as well as a vocational welding instructor for Bridgerland Area Vocational Center in Logan, Utah. Randee will bring several unique comedy acts, along with his expertise as a bullfighter and barrelman.

"The protector of cowboy, the entertainer of the crowd," so said a well-known sports commentator. He was referring, of course, to the rodeo clown. Rodeo clowns come in all shapes and sizes and all have to be top-notch athletes in peak physical condition. They have to be agile, quick, fearless, have the memory of a computer and an encyclopedia knowledge of bulls.

There are basically two types of clowns: the bull fighter and the barrelman. They both have serious jobs to do with a little flair of comedy thrown in. The bullfighter clowns are the track stars. They are out in the arena to distract the unpredictable bull from a downfallen cowboy. Pick-up men on horseback can't be used around the ill-tempered bulls.

The other type of rodeo clown is the barrelman. He uses himself and his barrel as a diversionary obstacle. He hauls a heavy, battered, reinforced metal barrel around, and folds himself inside like an accordion. Once inside the barrel, he awaits the blows of the irate bull and sometimes receives an unwelcome horn or hoof inside with him.

# SADDLE BRONC RIDING

Saddle bronc riding is rodeo's classic event, both a complement and contrast to the wilder spectacles of bareback riding and bull riding.

Bronc riding requires strength to be sure, but the event also demands style, grace and precise timing.

Saddle bronc riding evolved from the task of breaking and training horses to work the cattle ranches of the Old West.

Many cowboys claim riding saddle broncs is the toughest rodeo event to master because of the technical skills necessary for success.

Every move the bronc rider makes must be synchronized with the movement of the horse. The cowboy's objective is a fluid ride, somewhat in contrast to the wilder and less-controlled rides of bareback riders.

Among the similarities shared by saddle bronc riding and bareback riding is the rule that riders in both events must mark out their horses on the first jump from the chute.

To properly mark out his horse, the saddle bronc rider must have both heels touching the animal above the point of its shoulders when it makes the first jump from the chute. If the rider misses his mark, he receives no score.

While a bareback rider has a rigging to hold onto, the saddle bronc rider has only a thick rein attached to his horse's halter. Using one hand, the cowboy tries to stay securely seated in his saddle. If he touches any part of the horse or his own body with the free hand, he is disqualified.

Judges score the horse's bucking action, the cowboy's control of the horse and the cowboy's spurring action. While striving to keep his toes turned outward, the rider spurs from the points of the horse's shoulders to the back of the saddle. To score well, the rider must maintain that action throughout the eight-second ride.

While the bucking ability of the horse is quite naturally built into the scoring system, a smooth, rhythmic ride is sure to score better than a wild, uncontrolled effort.

# STEER WRESTLING

Speed and strength are the name of the game in steer wrestling. In fact, with a world record sitting at 2.4 seconds, steer wrestling is the quickest event in rodeo.

The objective of the steer wrestler, or "bulldogger," is to use strength and technique to wrestle a steer to the ground as quickly as possible.

That sounds simple enough.

But there's a catch: the steer generally weighs more than twice as much as the cowboy and, at the time the two come together, they're often traveling at 30 miles per hour.

Speed and precision, the two most important ingredients in steer wrestling, make bulldogging one of rodeo's most challenging events.

As with calf ropers and team ropers, the bulldogger starts on horseback in a box. A breakaway rope barrier is attached to the steer as a head start that is determined by the size of the arena. When the steer reaches the advantage point, the barrier is released and the bulldogger takes off in pursuit. If the bulldogger breaks the barrier before the steer reaches the head start, a 10-second penalty is assessed.

In addition to strength, two other skills critical to success in steer wrestling are timing and balance.

When the cowboy reaches the steer, he slides down the right side of his galloping horse, hooks the right arm around the steer's right horn, grasps the left horn with his left hand and, using strength and leverage, slows the animal and wrestles it to the ground. His work isn't complete until the steer is on its side with all four feet pointing the same direction. But that's still not all there is to it.

In order to catch the sprinting steer, the cowboy uses a "hazer," another mounted cowboy who gallops his horse along the right side of the steer and keeps it from veering away from the bulldogger.

The efforts of the hazer can be as important as those of the steer wrestler. For that reason, and the fact a hazer sometimes supplies the bulldogger a horse, the hazer often receives a fourth of the payoff.

The steer gets a head start determined by the length of the arena.

One end of a breakaway barrier is attached to the steer then stretched across the open end of the header's box.

When the steer reaches its advantage point, the barrier is released and the header takes off in pursuit, with the heeler trailing slightly further behind. If the header breaks the barrier before the steer completes its head start, the ropers are assessed a 10-second penalty. Some rodeos use heeler barriers, too.

The header ropes first and must make one of three legal catches on the steer - around both horns, around one horn and the head, or around the neck. Any other catch by the header is considered illegal and the team is disqualified.

After the header makes his catch, he turns the steer to the left and exposes the steer's hind legs to the heeler. The heeler then attempts to rope both hind legs. If he catches only one foot, the team is assessed a five-second penalty.

After the cowboys catch the steer, the clock is stopped when there is no slack in their ropes and their horses face one another.

Another aspect vital to the event is the type of horses used by the ropers. The American Quarter Horse is the most popular among all timed-event competitors, particularly team ropers. Heading horses generally are taller and heavier because they need the power to turn the steer after it is roped. Heeling horses are quick and agile, enabling them to better follow the steer and react to its moves.

## TEAM ROPING

Team roping, the only true team event in professional rodeo, requires close cooperation and timing between two highly skilled ropers - a header and a heeler.

The event originated on ranches when cowboys needed to treat or brand large steers and the task proved too difficult for one man.

The key to success? Hard work and endless practice. Team roping partners must perfect their timing, both as a team and with their horses.

Similar to calf ropers and steer wrestlers, team ropers start from the boxes of each side of the chute from which the steer enters the arena.

## BAREBACK RIDING

Bareback riding is a tough way to make a living!

It's a difficult event to do correctly, and, even when you do, you can expect to be punished.

Most cowboys agree that bareback riding is the most physically demanding event in rodeo taking an immense toll on the cowboy's body.

Muscles are stretched to the limit, joints are pulled and pounded mercilessly, and ligaments are strained and frequently rearranged. The strength of bareback broncs is exceptional, and challenging them is often costly.

Bareback riders endure more abuse, suffer more injuries and carry away more long-term damage than all other rodeo cowboys.

To stay aboard the horse, a bareback rider uses a rigging made of leather and constructed to meet PRCA safety specifications. The rigging, which resembles a suitcase handle on a strap, is placed atop the horse's withers and secured with a cinch.

As the bronc and rider burst from the chute, the rider has to "mark out" his horse. In other words, he must have both spurs touching the horse's shoulders until the horse's feet hit the ground after its initial move from the chute. If the cowboy fails to do this he is disqualified.

As the bronc bucks, the rider pulls his knees up, dragging his spurs up the horse's neck. As the horse descends, the cowboy straightens his legs, returning his spurs over the point of the horse's shoulders in anticipation of the next jump.

But it takes more than sheer strength to make a qualified ride and earn a money-winning score. A bareback rider is judged on his spurring technique, the degree to which his toes remain turned out while he is spurring and his "exposure," or willingness to take whatever might come during his ride.

It's a tough way to make a living, all right. But, according to bareback riders, it's the cowboy way.

## BULL RIDING

Rodeo competition, in the beginning, was a natural extension of the daily challenges cowboys confronted on the ranch- roping calves and breaking broncs to be ridden.

But intentionally climbing on the back of a 2000 pound bull? There is nothing natural about that. Most people, in fact, consider that a fool-hearted act.

The risks are obvious. Serious injury is always a possibility for those fearless enough to sit astride an animal that weighs a ton and is usually equipped with dangerous horns.

But cowboys do it, fans love it and bull riding ranks as one of rodeo's most popular events.

Bull riding is dangerous and predictably exciting, demanding intense physical prowess, supreme mental toughness and courage.

Like bareback and saddle bronc riders, the bull rider may use only one hand to stay aboard during the eight-second ride. If he touches the bull or himself with his free hand, he receives no score. But unlike the other roughstock events, bull riders are not required to mark out their animals. While spurring a bull can add to the cowboy's score, riders are commonly judged on their ability to stay aboard the twisting, bucking mass of muscle.

Balance, flexibility, coordination, quick reflexes and, perhaps above all, a good mental attitude are the stuff good bull riders are made of.

To stay aboard the bull, a rider uses a flat braided rope, which is wrapped around the bull's chest just behind the front legs and over its withers. One end of the bull rope, called the tail, is threaded through a loop on the other end and tightened around the bull. The rider then wraps the tail around his hand, sometimes weaving it through his fingers to further secure his grip.

Then he nods his head, the chute gate swings open and he and the bull explode into the arena.

Every bull is unique in its bucking habits. A bull may dart to the left, then to the right, then rear back. Some spin, or continuously circle in one spot in the arena. Others add jumps or kicks to their spins, while others might jump and kick in a straight line, or move side to side while bucking.

# TIE-DOWN ROPING

As with saddle bronc riding and team roping, the roots of calf roping can be traced back to the working ranches of the Old West.

When calves were sick or injured, cowboys had to rope and immobilize them quickly for veterinary treatment. Ranch hands prided themselves on the speed with which they could rope and tie calves, and they soon turned their work into informal contests.

As the sport matured, being a good horseman and a fast sprinter became as important to the competitive calf roper as being quick and accurate with a rope.

In modern rodeo, the mounted cowboy starts from a box, a three-sided fenced area adjacent to the chute holding the calf. The fourth side of the box opens into the arena. The calf receives a head start that is determined by the length of the arena. One end of a brakaway rope barrier is looped around the calf's neck and stretched across the open end of the box. When the calf reaches its advantage point, the barrier is released. If the roper breaks the barrier before the calf reaches its head start, the cowboy is assessed a 10-second penalty.

The horse is trained to come to a stop as soon as the cowboy throws his loop and catches the calf. The cowboy then dismounts, sprints to his catch and throws it by hand, a maneuver called flanking. If the calf is not standing when the cowboy reaches it, he must allow the calf to get back on its feet, then flank it. After the calf is flanked, the roper ties any three legs together with a pigging string - a short, looped rope he clenches in his teeth during the run.

While the contestant is accomplishing all of that, his horse must pull back hard enough to eliminate any slack in the rope, but not so hard as to drag the calf.

When the roper finishes tying the calf, he throws his hands in the air as a signal that the run is completed. The roper then mounts his horse, rides forward to create slack in the rope, then waits six seconds to see if the calf remains tied. If the calf kicks free, the roper receives no time.

**T**he K9 KINGS Flying Dog Show" is a professional k9 entertainment company based in Bend, Oregon. J.D. Platt owner, trainer, and former professional athlete has entertained millions of people since 1996 with his amazing K9 KINGS. The show's mix of music, costumes, comedy, audience participation, agility, frisbee®, comic book hero appearances, meet greet and pet area and high-flying trick dogs is great entertainment for rodeo fans.

In J.D.'s words: "My training is based around extreme consistency, patience, repetition, body and hand language along with good old fashioned problem solving + rules + exercise + affection. You will not find a better behaved and talented pack of dogs than these diverse and loyal group of K9 Kings. My techniques never ever include the use of choke, pinch or electric collars. Being a calm assertive leader of the pack along with alot of playing, toys and fun is the ultimate motivator in my training and the relationship I have with my dogs. As a self-taught trainer for over 13 years I've proved with a lot of hard work and patience anything is possible with human's best friend."

## ~ RODEO HISTORY ~

It is believed that rodeo was born in 1864 when two groups of cowboys from neighboring ranches met in Deer Trail, Colorado to settle an argument over who was the best at performing everyday ranching tasks.

That gathering is considered to be the first rodeo and it started the evolution of the true American sport.

Through these daily chores, the sport of rodeo evolved. It can be said that rodeo is the only sport derived from an industry and probably the only one that ever will.

Today's professional rodeo cowboy is a bit different from his predecessor from the 1800's, but the ideals and showmanship of long ago are still valued by today's competitors.

Now the cowboy travels much of the time in custom-made rigs or flies from one rodeo to another either by commercial airline or charter plane. Marketing and business acumen have become as crucial as roping, wrestling or riding skills. Cowboys are competing for more money than ever before.

Even if a PRCA member doesn't have the inclination to spend more than 200 days a year on the road in search of a berth in the Wrangler National Finals Rodeo -- the sport's Super Bowl -- he can participate in rodeos close to home each year.

Many of these weekend warriors and those chasing world titles take their wives and children along whenever possible, helping to keep the sport close to its family-oriented roots.
