Please join writer Logan Hebner and photographer Michael Plyler as they discuss the creation of their book *Southern Paiute: A Portrait*, a 10-year project interviewing and photographing Southern Paiute elders throughout their homelands in California, Nevada, Arizona, and Utah. As the book was published in 2010, Hebner and Plyler will also reflect on how the stories from these elders, many of whom have passed away, changed popular pre-conceptions and carved their way into the history books.
