President David H. Cannon,
St George, Washington Co.,
Utah.

My dear brother David:-

I am in receipt of your of the 26th ultimo. I was pleased to hear of you and that your family are all so well. I am pleased to hear that your family are able to get along with your scheming to plan work for them. I am pleased with the fore-sight you exhibit to furnish them employment, for the time will come, and that shortly, when they will find themselves compelled to take advantage of circumstances, as they will be compelled to plan for the employment of their time and teams. I heartily approve of your purchase of flour etc. etc. which gives your sons and teams employment, and if you only make a little, it is so much saved. I am glad your fore-sight leads you to lay in grain for your teams. It must be and advantage to you in the long run. [I can imagine the looks of Rhodies potatoes and when you told me the amount you paid for sets, I trust your boys will make a note of it and provide for planting them extensively the coming season.] I can imagine myself with you as you went to view the horses. I am glad that you found them all fat and fine. I understand that you sold "Major" for \$150.00 and the man is well satisfied with him, as I trust he will be, I think he has more outcome to him than he can show at present. Claude has turned his team, wagon and harness for \$350.00 cash and he has started to school on it, I trust he will continue to make a man of himself. I think you acted wise in letting Walter have a team which

can be of service to him. I am glad you let him have a house and lot on terms that will enable him to pay for it without having to go outside to get favors.

You apologize for writing me these items but I am pleased to hear them and know how you are moving along. You speak of a scarcity of money with you, but I think you do admirably with the means you have under control. With regard to Lewis, I think you acted wise in the course you pursued with him. If by trying over and over again it proves successful we will feel gratification to save our son. Our election is over and the Americans have carried all before them, it appears that they can control everything and run things their own way. It will now be seen what they will do. The Lord knows we are in their power and can only trust that he will over-rule everything for his glory, and our chastisement may be what we most need. I am,

Yours affectionate brother

Angus M. Cannon
