

WILL CELEBRATE OPENING NEW ROAD

For about two or three weeks some of the leading people here had talked of some sort of celebration when the new road at Ash Creek Dugway was completed but decided to wait until later before making definite plans as it was not known when the new bridge will be completed. A meeting of the business men was held last Sunday, presided over by Arthur F. Miles, Pres. of the Commercial Club, to consider the proposition but it was decided as too early to take any definite steps.

The Zion Park Club meanwhile had prepared a tentative program, fixing the date of the celebration at July 28 and the place Toquerville, the general public being invited. A copy of the call, signed by Chas. B. Petty and Chauncey Sandberg, president and secretary respectively of the Zion Park Club, was sent to this paper with a request to publish same. Upon receipt of it the editor got in touch with Mr. Petty by phone and told him what had been proposed here. We then showed the call for the celebration to H. T. Atkin, chairman of county commissioners, who took it to Arthur F. Miles, president of the Commercial club. The matter was fully considered, it being decided that it would be better to wait until about the middle of August, when the bridge over Ash creek would be so near completed that dancing on it could be indulged in, grapes would be ripe and the weather a little cooler, and hold a big celebration then at the bridge which all the county could attend.

The result was made known by Mr. Miles to Mr. Petty who said he would get the Zion Park Club together and let the editor know its decision.

Wednesday evening Mr. Petty called the editor by phone and said the Club had agreed to call off its celebration and join in the general celebration to be held later.

This new road is one of the biggest things that ever came to Dixie, cutting out a road that was much feared by travelers, and the celebration of its opening should also be on a large scale.

No time should be lost in making preparations. Committees should be appointed AT ONCE to get the celebration outlined and under way. Finance, program, and other committees, including one on transportation should be at work right now.

Do not let the grass grow under our feet. Let's get busy right now and push this thing right from beginning to end without any let-up. To make of it a fitting celebration some "pep" is necessary. Let's have it.
