

WINTER/SPRING 2021

In celebration of 20 years of Technical Education

Dixie Technical College celebrates 20 years of providing technical career-based education to students in Washington County! From humble beginnings in the old Harmon's grocery store to its permanent campus on the old airport hill, now known as Tech Ridge, Dixie Tech has weathered storms from financial to facilities and from political to perceptions. With perseverance drawn from the strength of the regions pioneer past, a vision for what was possible, and the sheer grit to build, no matter what, Dixie Tech stands 20 years proud.

To fully appreciate and celebrate this milestone, we must look back with gratitude for all those who paved the way for the success of Dixie Tech today.

I vividly remember the day that Dixie Applied Technology College founding president Rich VanAusdal could not afford a box of letterhead! There was simply no money in the budget for such frivolities! But his commitment to the future of the College is evident in the strength of the foundation he built, despite the challenges. President VanAusdal started one program at a time with whatever resources he could scrape together. Soon students were improving their lives as they developed technical skills.

Looking back, Rich and I remember with fondness, Cody Wulffenstein, a young man in the Diesel Tech program taught by Damon Atkinson. Damon taught Diesel without a working diesel truck! He salvaged parts from donated wrecked trucks and used whatever he could find to develop skill sets in his students. Cody was an incredible student who ended up taking first place at State Skills USA and went on to take 1st at National Skills USA! Damon embodied commitment to student success without excuses for what we didn't have. He focused on what we did have and made the best of it, as did many others. If you know Cody or Damon, give them a shout out!

The years have brought about tremendous growth: growth in budget, accredited programs facilities, faculty and staff, and most importantly, in students who graduate and go to work, debt free, in wonderful careers that provide the infrastructure for our communities.

My office windows at the beautiful Dixie Tech permanent campus allow me to look out over our incredible valley. I can see south to Bloomington and Sun River, and east to the Hurricane Valley, and out to Zion. The views north and west are obscured by hills and mountains, but I'm still keenly aware of the development in Santa Clara, Ivins, Dameron, Veyo, the Ledges, Central, Pine Valley and Enterprise. These views provide a constant reminder of my role as president of Dixie Tech to make sure that the College meets the need of Washington County employers for a skilled workforce. This responsibility is top of mind every single day for every member of the Dixie Tech family.

To our Legislators, Mayors, County Commissioners, and Board members, past and present, and to the private citizens who believed in us and contributed most generously, and who continue to support us through critical needs and scholarships, I restate our deepest gratitude. Collectively, you have made this possible.

On behalf of the faculty, staff, and administration, I give you, the Washington County community, our pledge to continue to build with excellence, and to guard and strengthen our foundation so that generations from now, students will continue to have rich opportunities to launch successful careers from Dixie Tech.

We look forward to a future marked by many more milestones as we celebrate the first 20 years of Dixie Technical College!

Kelle Stephens

Kelle Stephens
President

Welcome to Dixie Tech!!

We would love to take you on a personalized tour of our state-of-the-art campus.

SEEING REALLY IS BELIEVING!

Our recruiters will show you the exciting opportunities available at Dixie Tech and help you get started!

Campus Tour: (1 hour 30 minutes)

Wanting to explore all of our technical education options or just see the amazing things happening in Technical Education? This tour is for you! A Campus Tour includes general information about each program as we walk together through our incredible campus.

Single Program Tour: (30 minutes)

Do you already know what program you're interested in, but would like to see it? Schedule a tour to come in and see for yourself!

Evening Tour:

Busy during the day? We offer limited hours in the evening to accommodate your busy schedule.

Meet with a Student Success Advisor:

Before applying for a program at Dixie Tech, individuals are encouraged to set up an appointment with a Student Success Advisor. Advisors can answer questions and help individuals learn more about specific program information, admission requirements, scheduling, timelines, placement rates, etc.

PROFESSIONAL

BASIC WILDLAND FIREFIGHTER TRAINING - \$205

3/23 - 4/10

T & TH 6 - 9 pm AND S 8 am - 5 pm

Do you want to be a Wildland Firefighter? This 40-hour course provides the skills and knowledge necessary to become a Wildland Firefighter for federal, state, local fire departments, and private fire contractors. For those wishing to gain employment with federal and private firefighting agencies, you are required to have the Basic Wildland Fire Training. This course meets NWCG Firefighter requirements for fire line work.

100X LEADER SERIES - 6 WEEK ACCELERATOR COURSE - \$675

Tuesdays 1 - 3 pm

(Includes Instruction, Course book, Digital Toolkit materials and completion certificate)

3/30, 4/6, 4/13, 4/20, 4/27, 5/4

The reality is culture trumps strategy under pressure. When there is a healthy culture, the atmosphere for great results and liberation is available for everyone. The 100X System creates healthy culture which leads to relief and sustainable growth. Common vocabulary expressed in visual practical tools creates objective and inclusive language that transforms leadership in a simple, scalable, and sustainable way. The 100X leader becomes a leader worth following, knows how to build leaders worth following, and creates an organization everyone wants to be a part of and thrive in. This type of leader in every role in an organization is simply transformative!

Custom Fit Partnership of 40% off training costs may be available for qualifying companies - email customfit@dixietech.edu for more information
