16-4

Enterprise, Utah.  
December 1916.

Location: Undercurrent Dam.

Outlet of pumping plant during process of construction.  
Weather averaged 10-20 below zero.

16-12

Enterprise, Utah.  
December 1916.

Location: Undercurrent Dam Site.

Intake to canal system; looking up stream during process of construction of Undercurrent Dam.

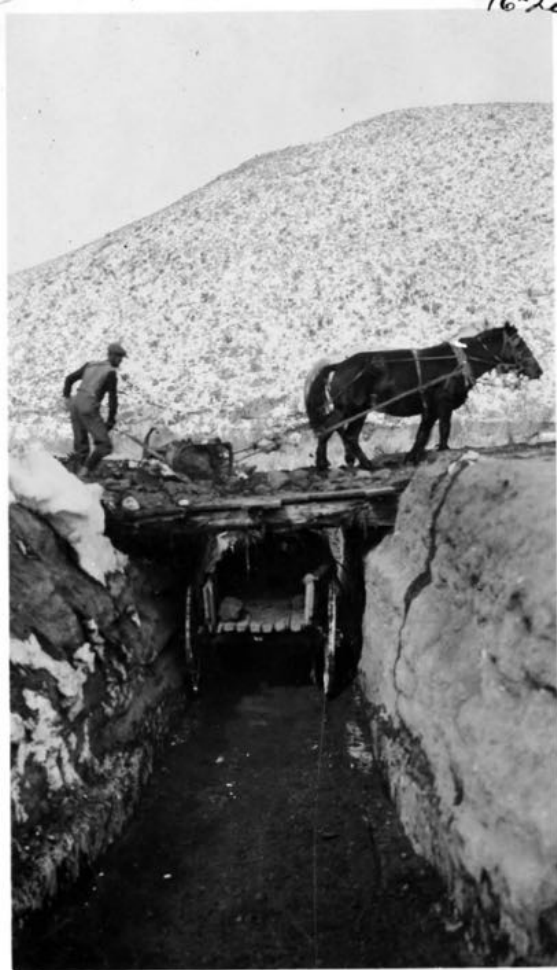

16-21

Enterprise, Utah.  
1916.

Undercurrent Dam.

Puddling cut-off trench with clay.

16-20 ✓

Enterprise, Utah.  
1916.

Undercurrent Dam.

Trap for loading dump  
wagons full of dirt.

22-33

Enterprise, Utah.  
Undercurrent Dam. November 20, 1922.

Looking up stream through Undercurrent Dam Spillway crest after same had been repaired and apron had been refilled following flood which cut a hole through the whole structure.

22-28

Enterprise, Utah.  
November 1922.

Narrows Dam Site.

Looking up stream at  
tunnel outlet section.

23-20, a,b,c.

Enterprise, Utah.  
November 1923.

Location: Under-  
current Dam Site.

Four views. Pud-  
dling the eroded  
fill into place  
above the spillway  
structure as it was  
built.

23-18

Enterprise, Utah.  
November 1923.

Location: Undercurrent Dam Site.

Two views showing sand dam at intake to  
canal system which was replaced by a per-  
manent structure about 300 feet down stream.

23-16

Enterprise, Utah.  
November 1923.

Location: Under-  
current Dam Site.

Beginning excavation.  
Looking up stream.

23-21

Enterprise, Utah.  
November 1923.

Location: Under-  
current Dam Site.
