Mr. D. P. Davis, a prominent liveryman and merchant of Goshen, Va. has this to say on the subject of rheumatism: "I take Pleasure in recommending Chamberlain's Pain Balm for rheumatism, as I know from personal experience that it will do all that is claimed for it. How to Treat a Wife.

[From Pacific Health Journal]

First, get a wife; second, be patient. You may have great trials and perplexities in your business, but do not therefore, carry to your home a cloudy or contracted brow. You may have trials, which, though of less magnitude, may be hard for her to hear. A kind word, a tender look, will do wonders in chasing from her brow all clouds of gloom. —To this we would add always keep a bottle of Chamberlain's Cough Remedy in the house. It is the best and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by J. R. Michels.

For every quarter in a man's pocket there are a dozen uses; and to use each one in such a way as to derive the greatest benefit is a question every one must solve for himself. We believe, however, that no better use could be made of one of these quarters than to exchange it for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, a medicine that every family should be provided with. For sale by J. R. Michels.

The Logan Journal says: "The mines of Cache County are as yet an unknown quantity. They have never refused to yield as far as the demand upon them has been made. There are evidences on every hand of an almost illimitable supply of iron, lead and copper. In the race for precious metals these have been neglected. Renewed hope and redoubled effort will accomplish wonders in the mountains of Cache."

The Mormon colony Diaz, which is situated in the State of Chihuahua, consists of seven hundred people and is said to be the most prosperous colony in all Mexico. A gentleman who recently visited that spot, says that it resembles an American town more than any other place in the republic. Nearly 3000 hogs have died in Salt River valley, Maricopa county, during the last three months of a disease believed to be pneumonia. The importance of the situation may be realized, says the Star, when it is known that there are about

15,000 hogs in the Salt River valley alone and any contagious disease breaking out in that section would be very serious. Dr. Richmond, territorial veterinarian and Prof. Devol, of Tucson, will make a thorough investigation of the disease. —Mohave County Miner.

Fire at White Hills.

Last Tuesday night the ceiling of James Twigg's saloon caught fire from a hanging lamp, and in a few moments the ceiling and roof were in a blaze. A small fire extinguisher was brought in from the W. An exchange says that a man in the western part of Nebraska, having a large bunch of horses, the market being over-stocked, wrote a friend in Washington city to ascertain if he could not help sell a car load or two of his stock. The answer was very brief and read as follows: "The people of Washington ride bicycles, the street cars run by electricity, and the government is run by jackasses. No demand for horse flesh."—Review, Milbank, Dakota.

A lucky trapper sent by mail a registered package from Sutton last week, in which six genuine and highly aromatic skunk skins were wrapped. It is said that the mail car was indeed a fragrant place and the postal clerks "cussed like all sixty." The package had to lay in the Clarksburg office several hours and assistant postmaster Shore says:

You may wash, you may scrub,
That floor if you will,
But the smell of the skunk skins
Will cling round there still.
