

ABOUT THE BOOK, "IN THEIR HONOR"

By the author, Linda Dinkel

The book's objective is to bring together for the first time, in one place, the main surnames that are also my immediate family who settled Grafton, Utah and helped shape early Hurricane, in a cohesive timeline that encompasses their pioneer spirit and the same pioneer spirit that lives on in their descendants. Book is Perfect Bound (soft cover) with spine, 312 pages. Over 800 photos, illustrations, and maps with captions. Book has genealogies of all families (pedigree & family group sheets). Section of original recipes from Hurricane's 1st bakery my grandparents opened (1925). This is the first book telling the origin of the Stanworth family as far back as any research (mine) has ever gone (1160AD). Complete publication of my work from the Lancashire Historical Society, England included. It is my family, Alonzo Haventon Russell & Louisa Maria (Foster) who's home and log cabin exist in Grafton. Over half of the original settlers of Grafton are my family. The city of Hurricane would not be what it is without those told of in the book.
