Roger made copies of all of our discs. He is considering doing the DVD for Washington County and will talk with Connie Childs when she comes to the tour on Saturday.
3. Lyman report on SUP of St. George: The SUP meeting from St. George went very well. There are people that want to help us. We asked them if they would consider documenting the remains of the houses at Hamblin and agreed to have FHHS help. They will look into it.
4. Karen report on SUP of Cedar City: Al Matheson told Karen that he would arrange for the SUP in Cedar City to put up a monument at the Fort. Karen and he will work out the details until it is time for a final vote.
