

## Silver Reef Museum - May 2018

*Find out if you own  
treasures from the 1870's!*

*Dr. Robert Schuyler is an Associate Professor of Anthropology with the University of Pennsylvania and did extensive archeological research at Silver Reef in the 1980's along with subsequent historical research on Silver Reef in the following years. Dr. Schuyler is considered one of the leading authorities on the history of Silver Reef. We welcome Dr. Schuyler back and hope you will join him for as many of these events as you can.*

Call Museum at  
435.879.2254 for  
details.

On May 3rd, 4th, and 7th Dr. Schuyler will be helping the Museum sort through its wide collection of artifacts.

On these days you can schedule to bring in your own treasured artifacts from the late 1880's for evaluation by Dr. Schuyler. He will do his best to shed some light as to what your item is and if it indeed came from this time period or even if it is from Silver Reef.
