Subject: Greater Zion Community Lecture Series

NOVEMBER 20 – GREATER ZION COMMUNITY LECTURE SERIES PRESENTS:

The Paiutes and Prehistory: An Archaeological Problem or the Problem with Archaeologists?

The boards of three local nonprofit organizations are pleased to announce the November Greater Zion Community Lecture that will be held on Wednesday, November 20 at 7:00 p.m., at Dixie State University's Snow Science Building, room 128.

We invite you to join us in welcoming Grand Canyon-Parashant National Monument Archeologist David Van Alfen as he shares stories and insight of the late prehistoric and protohistoric periods in Southwestern Utah and Northwestern Arizona with a focus on competing theories on what role the Southern Paiute groups played and who these groups are.

David Van Alfen has been working in local archaeology for more than 25 years. He started working with the late Richard Thompson and Barbara Frank at the Southern Utah University Archaeological Field School and Repository. Van Alfen received a BS in Archaeology from University of New Mexico and an MA in Archaeology from Northern Arizona University.

This no cost lecture series is sponsored by the following non-profits; Dixie-Arizona Strip Interpretive Association, St George Discovery Site at Johnson Farm and Southwest Chapter, Friends of Paleontology. We appreciate your support and welcome your attendance as we join with our new partners for this monthly lecture series event.

For further information or questions please contact 435-688-3200 or via email at bswensen@d-asia.org
