## Fire Wise - Living with Fire

If you live in Southern Utah, you live with the threat of fire.

In 1879, the mining town of Silver Reef was no different. They experienced a fire that burned down 1/2 of the Main Street in town. Fast forward 150 years and the Towns of Leeds and Harrisburg were under evacuation due to the Cottonwood fire.

Come to listen as we present the details of the fire in the mining town of Silver Reef, and learn to protect your property from a wildfire fighter and expert from the Dixie National Forest.

### **ABOUT THE PRESENTER: Cris Madrigal**

Cris Madrigal has been a wildland fire fighter since 1994. Cris started his carrier in Safford AZ. Has work on Safford AZ District, Dixie National Forest Pine Valley District, Tonto National Forest, Cave Creek District, and the Arizona Strip District. Cris is currently the Mitigation, Education and Prevention Tech for the Arizona Strip District.
