---

Dear Friends,

We are pleased to announce that our speaker for the Monday, December 2nd Legacy Lecture Series will be **Dr. Lincoln Nadauld**. We will meet in the St. George Tabernacle on the main floor, and the presentation will be from 12 noon until 1 pm.

**Lincoln Nadauld, M.D., Ph.D., is co-founder, President and CEO of Culmination Bio.** Culmination Bio is a technology company spun out of Intermountain Health with a mission to discover better health. Dr. Nadauld and his team have built a novel multi-modal health technology platform and insights engine for medical research, health-related data, and healthcare services. Culmination's intelligence platform generates real-world evidence tied to the performance of diagnostics, therapeutics, and genomic biomarkers. Dr. Nadauld most recently served as Vice President and Chief of Precision Health at Intermountain Health. He founded the Intermountain Precision Genomics program. He was the founding principal investigator of the HerediGene® Population Study, which is focused on discovering new connections between genetics and human disease across populations greater than 200,000 individuals.

Dr. Nadauld completed combined MD/PhD training at the University of Utah and clinical training in Medical Oncology at Stanford University School of Medicine. His work has been published extensively in peer-reviewed scientific journals, including Nature, Cell, JAMA, New England Journal of Medicine, and others. Dr. Nadauld also serves as Chairman of the Board for the Personalized Medicine Coalition, a Washington, DC-based education and advocacy organization consisting of 220 member organizations devoted to improving the use of precision medicine to better serve patients globally.

Dr. Nadauld is married with five children and enjoys attending their many activities and events, water sports, fishing, and other athletic pursuits.

We look forward to being with you on Monday, December 2nd at 12 noon in the St. George Tabernacle. Thank you so much for your interest and support of the Legacy Lecture Series.

Sincerely,  
Kevin Anderson
