

DIXIE AS WE FOUND IT

Let's leave Dixie the way we found it,
with all of the beauty and things that surround it.

You have heard of pigs that fly and important
people who tell the big lie, but here in Dixie lets not
make a sound that would keep the big lie around.

There are places, near and far, where the people don't like to live
anymore, so they pack their bags and go away to find a more
suitable place to stay. Here in Dixie some have found it
and love Dixie just the way they found it.

If Biff and his crowd can't say it aloud, the things
that make Dixie-ites proud, then help them go around it
and leave Dixie the way they found it. The thousands that
come here to stay must certainly feel that same way and though
they don't always shout it, they must like Dixie the way they found it.

The elite among us and the media that don't trust
us to know when we are well off, keep pouring in the
money and distributing the honey to those who can
be brought to the trough. There are others among
us who like and trust us who want to leave Dixie the way
that it was.

For the people in power, now is the hour for good sense
to be put to the test. Despite the moaning and groaning put out by
the elite and the press, It is time to put aside prejudice and lies and
do for Dixie what is best. Leave Dixie as you found it and Dixie
will take care of the rest.

(Heber C. Jones June 2021)
