

## N.Y.A. Boys To Put In Cement Walks On 1st East

The N.Y.A. dormitory boys are rapidly pushing ahead the concrete walks on the streets south from the D. H. Morris corner, under the city project, with City streets commissioner John H. Schmutz in charge, Leo A. Snow, engineer and Robert Seaman, foreman.

The first block was completed Tuesday and forms are being laid on down the street. It is planned to complete this unit of the project by the end of next week, according to reports.

This is only a small evidence of what can be accomplished in the beautification of St. George if property owners will cooperate in making use of this student help while it is available, states Mr. Schmutz.
