Dear Dad.

will here I am.

I had a letter from Bert tonight and he suggested that you bring the car up to me and I'll have it fixed up and use it for work. - I'll have to learn how to drive but that shouldn't be hard to do. - What do you say? I surely could use it. I'll have to travel 10 miles to & from work. - But I want it soon anyhow & I could have it fixed for him. - He worked so hard to get it. Will let me know what you think

about the new bond?

I have a new & job

I write shipping documents
for Domestic and overseas.
I have an Italian - I. S. U.

the labor part and I do
the other. We pick out the
and then we have a

lift bring our boxes, sacks,
bails etc. down to our V.C.V.
assembly area and then we
stock and number each item.
our tickets range for one to
47 pages. I have been doing
this for 2 weeks - Sunday Fall.
and I have put out 1300
tickets and about 130,000 items.
our warehouse contains shoes,
boots, over shoes, Ansoles and
well everything. - Tents, leggings,
Boat Safety Shoes - oh gee
there's too much. We have
six Bays each a block
long - which makes our
warehouse six blocks long.
