

WORKS AND GENERAL OFFICES, BEAVER FALLS, PA.

Are we addressing you correctly?

Do we spell your name correctly?

Is the address right as it appears above?

Do we use your proper title?

There's a special reason for asking you to help us check our mailing list stencil on those three points - right now.

With all the new information now being released about the latest developments in stainless steel, alloy, and carbon steel tubular products for pressure and mechanical uses, we are working harder than ever to pass this information on.

We plan to get it to you just as fast as it can be prepared and published.

That's why we'd like to know if the information on the little card is correct, so that we can make SURE you get the material that applies to your particular work.

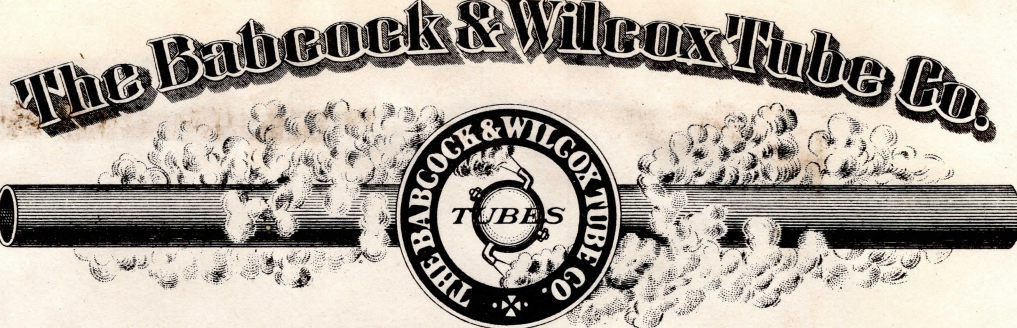

If your name and address are not correct, just indicate the change and we'll make a new stencil for you promptly. And even if they are correct, please mail the card anyway.

Thank you very much,

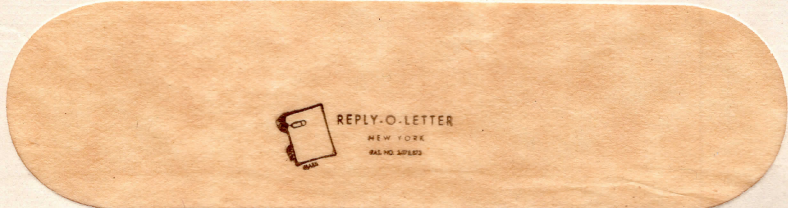

Edward A. Livingstone
Vice President in Charge of Sales

EAL:la

P. S. Are there others in your firm who would like to be on our mailing list? If so, just jot their names down on the card. They'll be mighty grateful for your interest.
