28TH and BLAKE STREETS
DENVER 5, COLORADO

Nov. 18 1947

Wilson Engineering & Exploration Co.
P.O. Box 14
Veyo, Utah

Att: Mr. Leroy A Wilson

Gentlemen:

Your return of our letter of Nov. 1 to you with notations of 100 tons per day capacity and analysis of the material you wish to sinter, received.

For 100 tons per day capacity we recommend our No. 3 Mace sintering hearth, which if arranged as shown on page 9 of our catalog can be operated by two men on shift and give satisfaction.

Quoting on a No. 3 Mace sintering hearth, with two special type exhaust fans, charge car, igniter car, piston truck for discharging the sinter cakes, tools and vacuum gauges, weight 35000 lbs., price \$12,000.00 FOB Denver, Colo.

If you wish to send us about 25 lbs., of the material, we will sinter it and return the sinter for your examination.

Yours very truly

THE MACE COMPANY
