" S I L E N T D E A T H "

Under the above heading the October issue of SCIENCE illustrated set forth some amazing data. We quote briefly as follows:

" war is the acme of violence....World War III would be inconceiv-
" ably violent....Yet in that war most people may die from insidious
" antihuman weapons that give no warning, destroy no forts or ships
" or cities, yet can wipe out human beings by the millions. There
" may be little civilian rubble in the next war; just corpses, strick-
" en by invisible germs and rays and poisons that kill swiftly and
" silently.

" This is the promise of biological warfare. It was not
" used in World War II, but the United States has already spent
" \$50,000,000 in research on it... Most startling are two facts:
" (1) these killers are invisible, microscopic in size, capable
" of spreading to reach every living enemy; and (2) they can be
" easily and cheaply prepared by any belligerent who has a brewery
" and the skill to operate it. They do not involve the enormous
" cost and complications of atomic bombs... ^{the prospect is highly-graify-}
" ^{being to those whose business}
" at their disposal, to begin with, is killing human beings."

" is an innocent-looking, crystalline toxin, the most potent poison
" known to man.... one gram (1/30 ounce) is sufficient to kill seven
" MILLION men.... This new mass-killing poison, now available in
" pure form, is the toxin responsible for the disease known as
" botulism....It causes paralysis of the nervous system... and thrives
" in improperly canned food. Normally botulism is easily ~~killed~~
" prevented by the thorough cooking of food, which kills the bacteria.
" but if the TOXIN ~~is used~~ itself is used as a poison, cooking gives
" no protection."

" The spraying of water and food supplies with MINUTE
" quantities of this poison would kill people like flies and the
" only preventive would be the impossible one of not drinking and
" eating. The population would die without the slightest harm to
" buildings, docks, and transportation facilities, cities. The
" enemy could take them over intact."

" For poisoning a whole nation - of people, not misquitoes -
" a squadron of planes, spraying a fine mist of the toxin into a
" rain cloud, could deliver the deadly stuff to the water and food
" supply of a nation. Result: silent, paralyzing death for millions.

" Only a little less shocking is the possibility of making
" war on human beings ~~with~~ through living bacteria....There would not
" be nearly enough doctors, nurses, hospitals, to care for the patients...
" Disease worse than the plagues of old because research has provided
" new, virulent strains of the germs.

" Col. Stafford Warren...said that deadly products of the
" atomic bomb would drift in the water like clouds in the sky...
" These powerful by-products could themselves be dropped from planes,
" and might be even more effective than the atomic bombs in render-
" ing water supply fatal. To get the effects it wouldn't even be
" necessary to drink the water. Our modern plumbing systems form
" complicated branching networks which would automatically carry
" reservoir water, the source of deadly rays, into every home.

Now turn to your bible, especially Revelations 8:10,11, and note that prophecy verifies the above.

But let me quote further from the abovementioned article:

C

" An attack on the enemy's food supply by spraying and dusting his agricultural lands from airplanes, and thus ruining his crops, could be made calamitous in a long war... Very small quantities of these plant regulators are effective. Tomato blossoms can be prevented from setting into fruit by spraying only one-tenth of a pound of regulator per acre. The dosage for killing or stunting such plants as cabbage, soybeans, sweet potatoes, and sugar beets is less than one-fiftieth of the usual dose of insect poisons like arsenic and ammonium sulfamate. When the plant regulators are distributed from airplanes in the form of an oil spray, they are not weakened or removed even by a heavy rainfall, and they last. One of these compounds renders the ground useless for more than two months and thus ruins a whole growing season.
" But by the time anyone realized that the war was on, the irreparable damage would have been done.

Radar has been widely publicized, and perhaps you are visualizing the airplanes of the invaders being spotted in time to destroy them and hence avoid the above calamities, but what has not been publicized is the fact that airplanes can be flown so that radar is ineffective against them. And what is to prevent saboteurs poisoning our water supplies and atmosphere???

The subject is too extensive to go into it in greater detail or length herein. It is idle prattle to talk world states and outlawry of war, for the masses have not yet accepted the gospel of Jesus Christ and this is the only thing which will prevent wars and wholesale destructions. Yes, we can become slaves in a regimented state and possibly stave off war for awhile - until the devils got to quarreling among themselves, much like Hitler and Stalin, but if we accept such a state we yield to the beast system and take his marks upon us and thereby become subject to the second death. (See Revelations 14:9,10,11,12,13. also chapters 17,18,19 of Revelations).

As men obtain more terrible weapons wars will become more terrible until, coupled with other destructions, all humanity will be wiped from the earth save a small remnant who prepare against these forces.

Prophecy states that the principal place of refuge for this purpose will be in the Rocky Mountains of America, the original site of the Garden of Eden, and that when this time comes the refugees will go into the tops of the mountains. They Mormon people settled the valleys and have not gone into the tops of the mountains". These tops of the mountains will be covered with mists and frequent ~~showery~~ rains. The earth is now straightening rapidly on its spinning axis. When it returns to vertical, conditions on this earth will be similar to those existing prior to The Deluge.

There is a world of work to be done. People have a perfect right to believe in the prophets and keep God's commands to PREPARE. If their Church leaders are too occupied with other duties that does not excuse them from ACTING. In Section 29:7,8,9, God specifically commands this people who believe to PREPARE against these destructions, both spiritually and TEMPORALLY.

Sometime ago we printed and distributed several hundred copies of our "End Time Refuges". It received considerable response from the few who received it. While not being able to refute it, it met secret whispering opposition from bishops and others in the LDS Church who are so surfeited with the cares and business of this life they do not have time for the prophets. If there is sufficient interest, we will print another edition of this 20-page booklet. Price 35 cents per copy, \$3.50 per dozen, \$25 per hundred.

It is evident to thinking persons who will study the information herein and the many quotations and references in "End Time Refuges" that the only way people can escape these judgements is by living Sainly lives and by fleeing to the high places of the wilderness in the Rocky Mountains and there build structures which will

1. withstand 57-pound hailstones
2. keep the interior warm when outside temperatures are very cold
3. heat without light from the sun
4. withstand frequent earthquakes
5. keep out the harmful suspensions of a polluted atmosphere
6. have an independent PURM water supply
7. be undetectable by radar, specific-gravity detectors, magnetic detectors, heat detectors, light detectors, etc.
8. be proof against bombs
9. protect against seven-fold sun radiation
10. be out of the reach of maddened, plundering mobs,

and wherein:

11. crops can be grown,
12. humans live,
13. animals be housed and fed.

Over years of intensive research and inventive work we have developed such enclosures. Our methods and processes are far ahead of the Swedish and other underground factories. However, advanced as are our methods, resulting from a lifetime of effort, to which we seem to have been peculiarly called, there is much work yet to be done, and the time is so short. We sincerely believe that those believing the prophets can progress this work faster by cooperating with us than by starting from scratch with their own or some other organization. We, therefore, will welcome your free-will offerings to aid this work. We would like to have sufficient income from this source to enable us to immediately print several thousand letters similar to this one and also further distribute "End Time Refuges" and similar literature.

To furnish the power, heat, and illumination, water and atmosphere for an enclosure covering several acres or more is no idle accomplishment. We believe that a few of our relatively inexpensive type should be quickly erected as an initial safety means and that progress on the more costly units be then prosecuted as rapidly as workers are available.

There is good reason for this sequence. All of us are suffering from malnutrition, irrespective of how carefully we may be eating. The RIGHT foods simply are not available to us, no matter where we live nor how much money we may have.

You have all witnessed money fail you to procure things you need. Logic should convince you what you have already seen is but a fore-runner of worse conditions. It has been prophesied that this people will be cutt off from all outside sources of supply.

E. I believe I could give you numerous references, some of which I have already supplied you, to convince you that the renewal promised by God of our bodies will come through eating ALL the many varieties of fruits and herbs grown upon the earth. Not just a few varieties but ALL of them. The greater the variety the better we all feel.

P
N
O
W, if any of you are so foolish as to be eating flesh, sugar, canned or packaged foods, I strongly urge you to immediately cease from this folly.

" Behold, verily, thus saith the Lord unto you:

Y
" IN CONSEQUENCE OF EVILS AND DESIGNS WHICH DO
" AND WILL EXIST IN THE HEARTS OF CONSPIRING MEN
" IN THE LAST DAYS, I HAVE WARNED YOU, AND
" FORWARRN YOU, BY GIVING UNTO THIS WORD OF WISDOM
" BY REVELATION." (D.AC.Sect.89:

This should be sufficient for anyone who belives these words to be the voice of God. There exists a horrible conspiracy abroad in every land of this earth to pollute people, especially Christians, by adulterating their reading, their thinking, their eating and their drinking. All packaged foods and canned foods are altered and DANGEROUS. Meats are especially dangerous and very susceptible to botularis poisoning in addition to the other poisons they contain and generate.

Therefore, you cannot rely on any food unless you grow it yourselves or obtain it from someone you trust who grows it. The soils have been defiled so they no longer produce complete foods. The enclosures we have invented can change all this.

Now, the free-will offerings you may send us cannot build even an initial enclosure, but they can aid us to apread this information and arouse sufficient thinking persons so they may rise to the occasion and cooperate with us sufficiently to get something tabgible built. We would like to operate at least an initial enclosure and supply those who help us make it possible with fruits and vegetables grown ~~theirin~~ at fair prices; - at least until you can come live with us in such enclosures and help grow it yourselves. At least, with your aid, we ought to be making steps in the right direction. If some of you see fit to come join us we'll try to find suitable work for you to do in making these enclosures possible or in erecting them.

Don't come with the idea you are doing us a favor but only come if you feel you are doing something for yourselves and your fellow-men. We have been getting along for ourselves and probably can continue. Given time, we may get a sufficient enclosure for the few of us here, but we feel we should warn our neighbor and that in numbers there is strength.

A remarkable invitation and promise is made by the Lord in Section 133, verses 44 and 45:

" Yea, when Thou comest down, and the mountains flow
" down at Thy presence, thou shalt meet him who
" rejoiceth and worketh righteousness, who remembereth
" Thee in Thy ways. For since the beginning of ~~time~~ the
" world have not men heard nor perceived by the ear,
" neither hath any eye seen, O God, besides Thee, how
" great things Thou hast prepared for him that waiteth
" for Thee."

Jesus

It seems there is some great reason for ~~us~~ wanting a faithful few to wait for His Second ^{Coming} ~~and~~ to be here on earth to meet Him. The hazard is not then, for if we have lived righteously, He will save us by causing us to be caught up into the clouds with Him to escape the horrible destructions prophesied for that event, but He warns us (Sections 29:7,8,9,10,14,15,16, ~~etc.~~ 17,18; 34:8,9) that we must make both spiritual and TEMPORAL preparation to escape the sun-darkening and associated destructions and tribulations which occur PRIOR to His Second Coming.

Get this: this wicked anti-Christ age we are now living in must be cut short in order to save the elect or the true Christians. If it is not stopped soon, things will get so intolerable that the righteous could not survive this wicked power. In the drama of Revelations, in 6:10,11:, the righteous Saints who had previously been slain are made to cry with a loud voice:

" how long, O Lord, holy and true, dost Thou not judge
" and avenge our blood on them that dwell on the earth?"
" unto
" And white robes were given ~~them~~ every one of them;
" and it was said unto them, that they should rest yet
" for a little season, until their fellowservants also
" and their brethren, that should be killed as they were,
" should be fulfilled."

It would appear that this wicked period is drawing near to its close for it is reported that more than thirty million Christians have been tortured and killed by the beast system in recent years. Their (beast) power is growing so rapidly that, unless checked, they will soon completely encompass the earth. Revelations 13 states this system will prevail against the Saints of God and overcome them (verse 7) but Jesus tells us (Matthew 24:22) that their ~~13~~ dominion days terminate. The terminating event is the sun-darkening (Matthew 24:29, Sect 29:14; 34:8,9, etc.) period of terrible destructions when ~~Magog~~ Gog and Magog's armies will be rained upon with great hailstones (caused by the sun-darkening) and aerial bombardment and cut to pieces. Section 88:87 gives us a prophetic milestone in that the earth is to tremble, reel to and fro as a drunken man, stars fall from heaven (skies) and the sun is to go dark and it and the stars refuse their

C

shining. Three of these four events HAVE occurred and are now occurring. I have previously sent you evidence of this. So we cannot claim ignorance as to the time we are living in in relation to the prophetic chronology.

The anti-Christ persecution period is to greatly intensify and rapidly run to a completion when these powers marshal their forces against the Holy Land (which includes Judaea) and are gathered to the Valley of Jehoshaphat for the great Battle of Har-Magedon. See Matthew 24:15, 21, Zech. 14:2, etc., etc]. The heathen nations are marshalling their forces and their eyes are on the land across the Euphrates, which is to dry up for them to pass over.

We have a little time while this is taking place but these events can strike any time. When Gog and Magog (Ezekiel 38, 39, etc.) strike at the Mediterranean countries they will be sure to strike at the United States first to cripple her. Perhaps a poison and germ warfare will be prosecuted against us undeclared, with few knowing of it until its ravaging effects become manifest, and then it will be too late. One thing is certain: we will be foolish to look for a declaration of war. The work of the fifth columnists and other insidious forces are going on unknown to the vast majority of Americans. In fact, those who know what is happening are made to look foolish and called crackpots by the controlled radio and press and motion picture industry, yet they tried desperately to put away 26 of these "crackpots", most of them poor Christians who believed their bibles. About their only defense were their prayers, but they seem to have been efficacious for this dastardly "trial" was only ended by the death of Judge Richer and Franklin Delano Roosevelt.

We could fill page after page with illustrations of how this conspiracy of the black devils has filled our bodies with illness, polluted the school books with insidious doctrines, polluted the Churches, infiltrating even into the Church of God. Our children are injected with serums and made to believe their Creator is not sufficient but that they are creatures of chance and "evolution" and must depend on the "scientists" for their well-being. A few militant oppositionists were so successful in unmasking medicine (allopathy) and showing how unscientific it really was that the medical profession quickly came out with sulfa drugs and other alleged scientific discoveries to bolster their prestige with the public. They have so much prestige and power today that virtually all opposition is silenced. The Vitamin racket just about gave them complete coverage with the people.

Even honeybees have now been invaded so that you no longer can purchase pure honey and be sure of it, and believe me you can be sure that purchased honey will not be good, and who knows what effect this may have on those who eat the honey. Another reason for a private food supply.

Send us your comment and whatever you can to help spread this information.

Very truly,

Leroy A. Wilson
