Dedication

Because we are surrounded by
mountains majestic, by valleys and
winding streams, by subtle colors
and wonders of nature—a glorious
paradise of which an artist dreams.

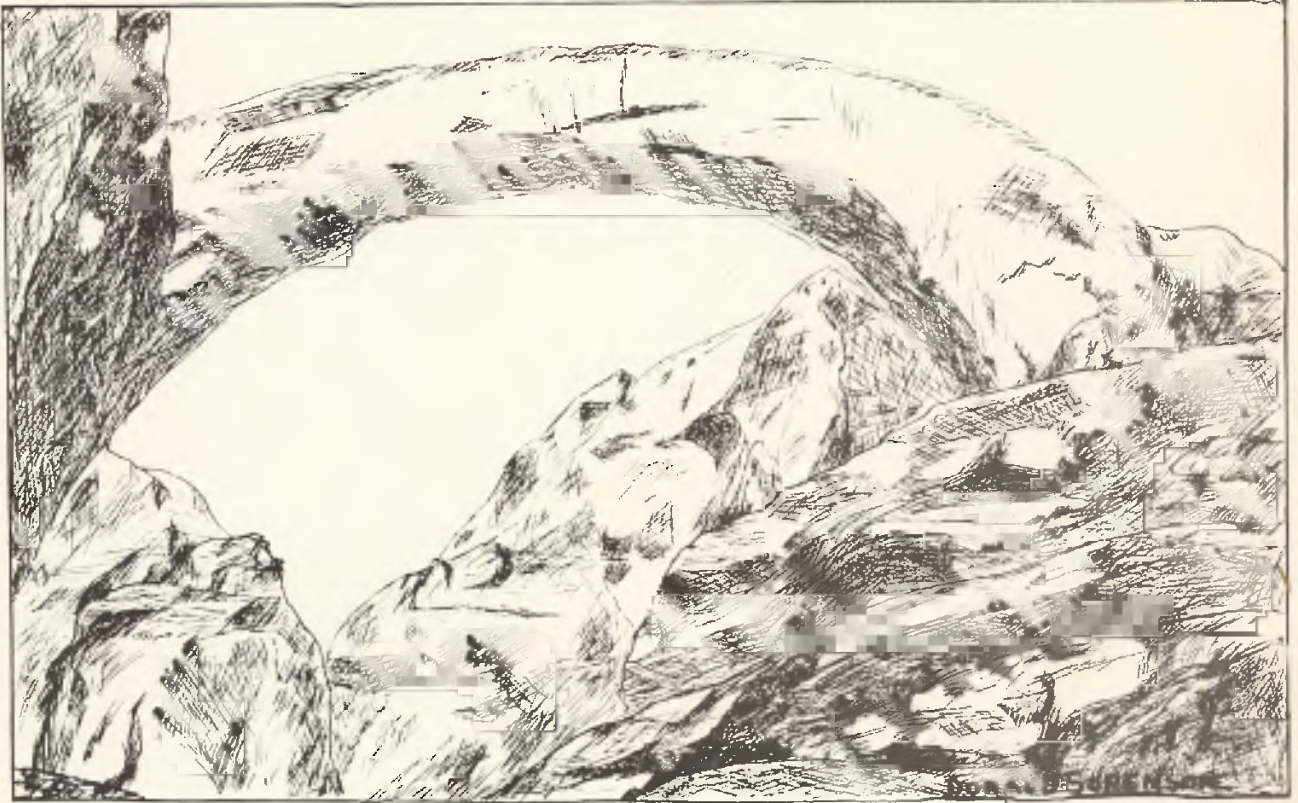

We dedicate this Woodwardia
to the natural beauties of our state.

Glorious and wonderful, price-
less and free, vital food for the
soul, here for all to see.

Dear Geneva

Faculty

MAY I TAKE this opportunity to compliment the students and teachers of the Woodward on their achievements for the school year just ending. We have never had a better year. The work of our student officers has been outstanding in every way. Our paper has come out regularly; and this is the largest annual ever published at Woodward. May it serve to remind us all of a happy successful year.
